

WVRRM Commemorative Brick Program

Paving the Path to the Future... One Brick at a Time!

The cost of construction of a building the size needed to store and service steam locomotives, and to house the growing collection of railroad artifacts, will be well over \$20,000,000. So there is a big need for fund raising. Paving the path to the future building will be our first big fund-raising project - commemorative bricks.

You can pay tribute to your love of railroad heritage and honor your family or business by sponsoring a commemorative brick in the future museum's walkway. It is especially meaningful if you, or a member of your family, worked on the railroad. For a tax-deductible donation of \$140.00, a 12" x 4" brown granite brick will be engraved with your inscription for generations to come. Your inscriptions can be from one to three lines of text with a maximum of 19 characters and spaces per line. The bricks will be set into a memorial around the museum complex once the building is complete. Visit our web site www.wvrrailmuseum.com and view photos of the engraved bricks.

Color may vary from the sample

Print inscription below allowing one square for each letter, number and space between words:

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Line One
